PROFESSIONAL SUMMARY

Product Designer and Front-End Developer with 6 years of experience designing and building web and mobile products across fintech, lending, SaaS, marketplace, HR and service-based platforms. Works end to end, from research, user flows and information architecture through to high-fidelity interfaces, design systems and production front-end code in HTML, CSS and JavaScript.

Has redesigned 300+ screens for a multi-sided salon-booking platform and designed and built live websites for fintech and lending companies. Works closely with founders, product owners and developers, and brings the engineering context that makes handoff faster and implementation more accurate.

CORE SKILLS

Product & UX: User Research · Competitive Analysis · User Flows · Information Architecture · Wireframing · Prototyping · Interaction Design · Usability Testing · Visual Design · Responsive Design · Design Systems · Accessibility · Developer Handoff

Product Thinking: Requirements Analysis · Problem Definition · User-Centred Design · Design Iteration · Stakeholder Collaboration · Design Documentation

Front-End Development: HTML5 · CSS3 · JavaScript · Responsive Web Development · Design-to-Code · Git · GitHub · Vercel

Design Tools: Figma · FigJam · Framer · Stitch

PROFESSIONAL EXPERIENCE

PRODUCT DESIGNER
Jun 2026 – Present

Soma Concepts

- Redesigning the Airgo app, reworking its user flows, information hierarchy and interface for a clearer, more consistent experience.
- Designing the e-commerce website for Sidi and Sons, structuring how customers discover, browse and buy products.

PRODUCT DESIGNER & FRONT-END DEVELOPER
May 2026 – Jul 2026

Fancrest Investment Limited

- Designed and built 5 core website pages, establishing the company's first structured digital presence for its lending services.
- Created a streamlined loan-enquiry journey that lets prospective customers understand available services and start an enquiry directly through WhatsApp.
- Ran competitive research across fintech and lending websites and used the findings to structure the site's information architecture and content hierarchy.
- Iterated on the design from stakeholder feedback, cutting unnecessary content and improving clarity across key service and loan pages.
- Also supported the company's HR function alongside the website project.

PRODUCT DESIGNER
Jun 2026

Kokopay & Kokosend

- Redesigned 11 key website screens across both products, improving spacing, hierarchy, content presentation and visual consistency.
- Introduced clearer information hierarchy and conversion-focused layouts so visitors can grasp each product's core offering at a glance.
- Created light and dark-mode experiences with reusable components and design-system elements shared across both products.
- Delivered the approved redesigns, which are now live.

PRODUCT DESIGNER & FRONT-END DEVELOPER
Aug 2026

Togedab

- Designed and built the company website, taking it from information architecture and visual design through to a live, responsive front-end.
- Delivered a live website that gives the business a clear, professional online presence.

PRODUCT DESIGNER Nov 2024 – Mar 2026

Vhaye & Kess

- Redesigned and expanded 300+ screens across customer, service-provider and admin experiences, closing design gaps across key booking workflows.
- Redesigned the customer booking journey across salon discovery, service and stylist selection, scheduling, payments, reviews and cancellations, cutting the path to a confirmed booking by about 35%.
- Redesigned service-provider workflows for appointments, services, staff, availability, earnings, analytics and calendars, reducing the steps needed for key salon operations by about 30%.
- Ran competitive research across salon-booking platforms, including Booksy, and applied the findings to navigation and booking-flow structure.
- Worked through multiple iterations with the Product Owner and supported developers through Figma handoff, reducing back-and-forth and implementation ambiguity.

PRODUCT DESIGNER Oct 2025 – Dec 2025

HNG Internship

- Designed responsive interfaces for a wallpaper platform and a child-focused coding application, adapting layouts and interactions to each audience.
- Designed a coding-challenge experience that lets children explore activities and view their results through a simple, engaging interface.
- Collaborated with a team of about 10 designers on a Site Audit platform, contributing to interface design and presentation work.

PRODUCT DESIGNER Jan 2025 – May 2025

Dev & Design (Availaid)

- Designed Availaid, a platform connecting NGOs with volunteers, as part of a multidisciplinary design team.
- Ran competitive research on existing NGO and volunteer platforms to find opportunities for a more accessible experience.
- Contributed user flows, wireframes, high-fidelity screens and interactive prototypes for both volunteer and NGO experiences.

UX/UI DESIGNER Jun 2024 – Sep 2024

Sleeky Programmers

- Designed responsive interfaces across 3 client products covering HR management, church finance and an agricultural marketplace.
- Created reusable components and design-system elements, reducing repetitive UI work and improving consistency across screens.
- Contributed to OneFarm's marketplace experience, supporting product discovery, ordering and payment between farmers and consumers.

FREELANCE PRODUCT DESIGNER & FRONT-END DEVELOPER 2020 – 2024

Self-employed

- Delivered UI/UX design and front-end development projects for independent clients and small businesses.
- Built responsive front-ends in HTML, CSS and JavaScript for client websites (2020 to 2021), turning designs into working, production-ready pages.
- Designed the UI/UX for a client's mobile app, website and admin dashboard (2022), covering user flows, wireframes and high-fidelity screens.
- Developed front-end builds across a series of client projects (2023), implementing designs accurately across screen sizes.

EDUCATION

Master of Public Health (MPH) Jun 2026 – Present

Ahmadu Bello University, Distance Learning Centre

B.Sc. Microbiology 2017 – 2023

Obafemi Awolowo University
